### Using this brochure:

Most walking & running paths are paved & firm. Hiking trails are rugged with dirt or loose surfaces and indicated on site maps. Site locations and maps are listed by number. Individual maps have number in lower right hand corner.

Keys:  = entrance     = start     = parking     = hilly trails

# EVANSVILLE IN MOTION

How many times have we used these excuses for not exercising: it's too hot; it's too cold; it's raining; it's not safe in my neighborhood; it gets boring? Maybe you could add a few more excuses. We have all used them.

We have a solution! We have found many beautiful areas in Greater Evansville to get out for a walk or a run. We have even mapped out the mileage for you. Also included are places to exercise indoors when you can't exercise outdoors.

So just get out and do it! You'll feel better, look better, be healthier and as a bonus you will discover the beautiful area in which we live.

\* Before increasing your physical activity level, we recommend you consult with your primary care provider.

## **GETTING STARTED**

Try to walk or run for 30 minutes most days of the week. If you are a beginner, start with brisk walking 5 minutes a day and add 2 minutes to this each week. At the end of 12 weeks you will be walking or running for 30 minutes!

**WARM UP** – You need to warm your muscles to improve flexibility by walking in place while pumping your arms for a few minutes before stretching.

**STRETCHING** – Stretch after the warm up, and after the cool down. When doing stretches remember these tips:

- \* Don't bounce like a yo-yo
- \* Hold each stretch 10-20 seconds
- \* Stretch from head to toe
- \* Stop if it hurts

**PACING** – This means learning how to balance your energy. You will be going the correct pace if you can talk comfortably while walking or running.

**COOL DOWN** – Go slowly for 5 minutes at the end of your walk or run to relax your muscles and allow your heart rate to return to normal.

## Safety Tips

- \* Always wear sunscreen SPF 15 or higher
- \* Don't wear headphones
- \* Use caution around strange dogs
- \* Stay alert for bad weather
- \* Walk against the traffic on the far left side of the street
- \* Stay inside if it is above 80 degrees AND humid or below 25 degrees AND windy
- \* Carry some form of identification
- \* Buddy system is always the safest

## Shoes

- \* Never wear shoes that feel tight
- \* You should be able to wiggle your toes with no pressure on the sides of your shoes
- \* A good shoe will provide cushioning, support and flexibility

## Studies show that aerobic exercise like running and brisk walking can:

- \* Help control blood pressure
- \* Decrease anxiety and depression
- \* Help control blood sugar
- \* Improve your appearance
- \* Improve your stamina
- \* Improve cholesterol levels
- \* Help with weight loss and weight control
- \* Improve muscle strength
- \* Improve your well being
- \* Postpone disability in seniors by nine years
- \* Increase your life span
- \* Improve your quality of life

# University of Southern Indiana

← To Mt. Vernon

Indiana 62

Eichoff Rd.

Clarke Lane

Schutte Rd.

Bent Twig Lane

University Blvd.

Reflection  
Lake

**1.3 miles** = 1 loop around bold green line.
